Zero Balancing® improves mobility, relieves pain, sharpens senses, and facilitates self-confidence. Most people feel more free, grounded and joyful after a **One-to-Two ZB Session**.

In this clinic setting, Lisa treats two clients per appointment slot using comfortable touch through clothing on a massage table. New clients may participate after a private session or consultation.

These Zero Balancing Sessions:

- Address tissues of adaptation, instinct and awareness — bone, ligaments, organ membranes and other fascia;
- Include pauses for reorganization and integration; and
- Fee is only \$35, sliding to \$25, based on need for reduced rate.
